

## **RECONSTRUCTION OF SWIMMING POOL AT HEALTH SPA RESORT THERMIA PALACE 5\* and PARTIAL RECONSTRUCTION OF PREMISES AT IRMA HEALTH SPA 2018 – 2019**

In order to increase service quality and guest satisfaction, SLOVENSKÉ LIEČEBNÉ KÚPELE PEŠŤANY a.s. is to invest in the renovation and modernization of its premises and facilities.

After last reconstruction of the Health Spa Resort Thermia Palace 5\* hotel and the Irma Health Spa in 2006, we continue now with the full repair of the swimming pool in the Thermia Palace hotel and upgrading of Irma Health Spa premises. Work will start on October 22nd, 2018 and should be completed by 15 Jun 2019, 2019. The renovation will result in the hotel's new indoor swimming pool and restored outside pool, which will provide Thermia Palace's guests with a new dimension of comfort and will meet the aim of several years to turn Piešťany Spa into a leading wellness facility of the 5\* hotel complex. The project will be also associated with an expansion of the Thermia Palace Hotel accommodation.

Even though the reconstruction period means the closure of the swimming pool, sauna and fitness center facilities in Irma spa house, Thermia Palace Hotel guests will be offered an unlimited access to the largest water complex on Spa Island – Water & Sauna World at Esplanade hotel, where they would be able to use indoor and outdoor pools, whirlpools with water temperature of 33°C, as well as saunas and a relaxation zone. They can also utilize the 300 m<sup>2</sup> contemporary fitness centrum at Balnea Health Spa and a recreational pool, the pool with water bicycles, saunas, and tepidarium. This way the guests will have an unique opportunity to enjoy the best of services offered on the Spa Island.

We hope that the renovation will meet with guests' understanding, and they will welcome the opportunity to try our wellness facilities on Spa Island in Esplanade hotel. At the same time we greatly appreciate their loyalty to us, thank them for their understanding and already look forward to welcoming them to our new wellness center in the summer of 2019.
