MEDICAL COMPETENCE

Health Spa Piešťany is proud to have been providing successful treatments of rheumatism and other disorders of the locomotive and nervous system for more than 100 years. Our close cooperation with leading rheumatologists, institutions and universities results in best possible treatment for you. Our doctors compose a schedule of active and passive treatments for each guest individually and our therapists provide treatments with highest medical competence.

TREATMENTS

At Health Spa Piešťany the primary natural healing resources used are thermal mineral water and unique sulphuric mud. You can enjoy the healing water and mud in a mirror or mud pool, individual baths, mud packs and original Piešťany parafango pack. Besides our balneotherapy treatments we also offer many other curative methods and techniques of hydrotherapy, electrotherapy, rehabilitation and physiotherapy.

NUTRITION

Nutrition is another important pillar to a healthy and pain free future. The calorie content of our diet system respects the specific requirements a body has, while undergoing balneotherapeutic applications. It is also able to concentrate on reducing client's weight, as excess weight and obesity put more pressure on joints, causing pain. Recommended is a balanced nutrition based on meals from poultry, fish and white meats, with high content of vegetables, fibres and vitamins. We provide also special diet for osteoporosis indication. Dietetic therapy is directed by nutritionist assistants and doctors trained in the field.

EXERCISE

The best healing results are achieved by providing active treatments, such as group gymnastics, water gymnastics, Nordic walking or individual rehabilitation with physiotherapists, along with natural curative treatments. Weaker muscular groups are strengthened and the blood circulation is improved, resulting in reduction of swelling, relief from pain, improvement of mobility and thus full self-sufficiency in basic daily routines and better quality of life.
