MARIÁNSKÉ LÁZNĚ – THE TOWN OF 40 SPRINGS

Mariánské Lázně, in Czech Republic, was literally created to be a spa town. A local monastery was responsible for laying the foundations of this town in the early 1800's after they discovered numerous mineral springs in the area. It was not long before King Edward VII of Great Britain, Johann Wolfgang Goethe, Frederyk Chopin and many more luminaries flocked to this town regularly. Such a history illustrates our lengthy experience of pampering people and it continues today. It is time to come and find out what 200 years of spa experience can offer you today. It is time to walk amidst a beautiful historic town, its forests and soak up all this town has to offer. You will not regret it.

Mariánské Lázně was from its inception an important spa resort and often became the rendezvous of many royal families. To honor these famous and important visitors and to connect the past with the future, we decided to build on the original site where previously stood the bathhouse „Kaiser von Österreich - The Emperor of Austria” a new building in the Imperial style and with a name worthy of this idea. Imperial offers its guests luxury rooms, 40 underground parking places, lobby bar and café Imperial. Together with hotel Neapol, it is part of the unique historical spa resort Hvězda.

MINERAL SPRINGS

The Cross Spring (Křížový pramen)

In view of its therapeutic effects, this spring is primarily used for the treatment of disorders of the digestive tract (stomach complaints, intestines disorders, gall bladder complaints, and liver and pancreas disorders), metabolic disorders (obesity, gout, diabetes mellitus) and allergies related to digestion disorders. The sulphate content in the water has a laxative effect.

The Ferdinand Spring (Ferdinandův pramen)

The Ferdinand Spring consists of seven individual springs, of which the spring Ferdinand I is accessible for drinking. Its composition is very similar to the Cross Spring; but the mineral content is somewhat higher. The Ferdinand Springs is bottled and served as table water under the brand name of Excelsior.

The Forest Spring (Lesní pramen)

This spring water is used as medicinal drinking water to cure disorders of the gastro-intestinal tract, and it is also used for inhalation to cure disorders of the upper respiratory tract. In addition, it is suitable for curing certain types of urological

disorders, such as uric-acid stones, since the water strongly alkalises the acid.

The Rudolph Spring (Rudolfův pramen)

Due to its diuretic effect, it is used to treat kidney complaints and disorders of the urinary tract. The spring has a very high level of calcium (the ratio of calcium and magnesium being 5:4). Therefore, the mineral drinking water is recommended as a supplementary therapy in the treatment of osteoporosis. Its distinctive anti-inflammatory effects make it useful in treating urethritis.

The Ambrose Spring (Ambrožův pramen)

The Ambrose Spring consists of three individual springs, all of which have very similar chemical compositions. The waters are ferrous acidulous and have a low mineral content. Due to their high ferric content, they are used to cure certain forms of anaemia and its diuretic effects make it useful in treating some urinary tract disorders, lithiasis in particular.

The Caroline Spring (Karolinin pramen)

Due to its higher content of magnesium (the ratio of calcium and magnesium content being 2:5), the Caroline Spring water is used for treatment of urological complaints and kidney stones. The magnesium contained in the water prevents the formation of these concrements.

NATURAL MEDICINAL GAS CO₂

The Marie Spring (Mariin pramen)

The Marie Spring is actually a powerful gas seepage (99.7% natural CO₂). The natural medicinal gas is applied in the form of dry carbon gas baths. This spa treatment is becoming more and more popular since guests not only show lower blood pressure, an improvement of heart activity and improved blood circulation in the lower extremities, but also a significant improvement of sexual activities. In addition, this natural medicinal gas is also applied in the form of hypodermic applications as a part of the treatment of joint disorders, spine problems and heart ischaemia.

PELOIDS – PEAT, MUD

Peloids are inorganic and organic pottages, which are, after certain modification and heating, used for compresses and wraps. They are made of peat and other mud, which can be found around springs. The material is stocked in piles, where it oxidises in a certain way. Then it is modified and mixed with mineral water and steamed. It is used for 20 – 30 minutes once it reaches the temperature 40° C.

Peat wraps are used for treating locomotive system disorders, gynaecologic complaints and respiratory system disorders. Special additional treatment is offered in the form of peat vaginal tampons, which are used for curing chronic gynaecologic inflammations and sterility in women.

THE MORE RELAXED YOU FEEL, THE MORE OF A HOLIDAY IT IS

The beautiful forests surrounding our town is the first indication of just how relaxed you are about to feel. The forests provide a huge number of trails for walking but it doesn't stop there. Dotted all around our locality are many lakes, ponds, rivers and streams, places where a relaxing picnic can be enjoyed followed by a cool swim in summer which is an invigorating use of our country's calm and natural nature. Of course, the ever popular golf is very well catered for here. Just minutes from your hotel is our very own Royal Golf Club, an English style links course complete with clubhouse & restaurant. It tries not to boast too much of the fact that King Edward VII of England was its founding member! If you really want to know what it feels like to be royalty, you must take a ride in an open horse drawn carriage around the town, it's the perfect way to get to know us a little more at your leisure.

The best holidays are not only about where you go but about what you do once you get there!

A prime holiday location is one that has lots to offer and that includes seeing other places. A ten minute drive from here and you cross into **Bavaria**. Many of the old towns there are a **sightseers dream and a shoppers excitement**, all of which we can arrange for you. But, perhaps before you nip over the border, **Teplá Monastery**, that was home to the monks that founded this town and found the mineral springs, is a short drive from Mariánské Lázně and an exciting visit for lovers of history & culture. Also high on the list of must see is the 12th century **Loket Castle** which often hosts a variety of cultural or music activities within its ancient walls.
